# Labelling solutions
## for production and storage

**People are guided largely by what they see, and receive 80% of all information with their eyes. So accurate identification is the foundation for optimised production and storage processes.** Optimal labelling of parking spaces, production or storage areas guarantees a quick overview. The micro-perforated insert labels make labelling child's play, thus making them the perfect companions for all industrial labels from DURABLE.

## MAGNETIC HARD COVER DOCUMENT POCKETS
- Document pockets made from transparent PET hard plastic with magnet strips on the back
- Use on metallic surfaces, such as warehouse shelves and metal containers
- Suitable for scanners
- Insert labels can be exchanged quickly thanks to beveled front edge
- Download templates for insert labels at duraprint.eu

## DURAFIX®

- The DURAFIX® magnetic clip has a self-adhesive strip on the back so it can be attached to smooth, clean surfaces such as cabinets, glass or whiteboards
- The paper can be easily clamped between the two magnets regardless of its format
- Residue-free removal from smooth, clean surfaces
- Attachment on side or top depending on space needs
- Quick and easy use
- DURAFIX® RAIL for formats A5, A4 and A3, as well as DURAFIX® ROLL, a 5 m roll that can be cut individually to the appropriate format.
- This way, even posters and special formats can be attached easily
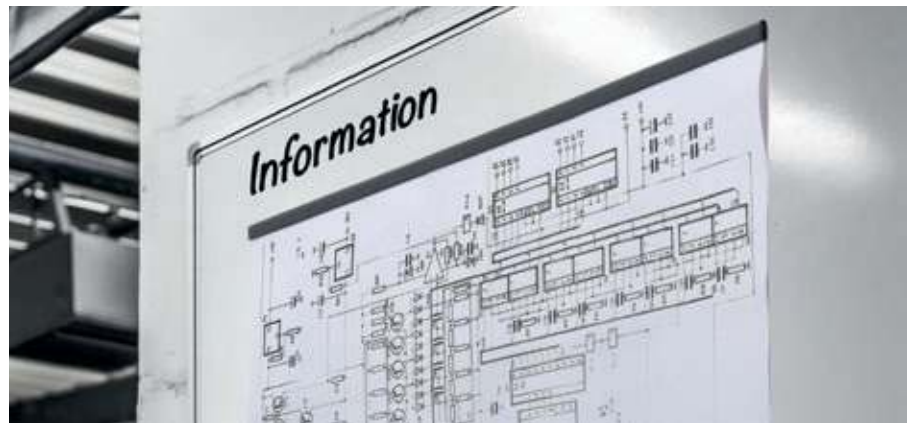

### DURAFIX® RAIL 297 MM

- Self-adhesive magnetic clipping strip for information materials and posters in A4 landscape and A3 portrait formats
- Allows a uniform appearance on smooth, clean surfaces such as cabinets, glass doors, whiteboards, lean cubes and showcases
- Dimensions: 297×17 mm (W×H)

# 4707     💧 01 black, 07 dark blue, 23 metallic silver
🗐 5 per bag

### DURAFIX® ROLL 5 M

- Maximum flexibility, as the magnetic roll can be cut individually to the sheet format with a pair of scissors
- Low space requirement due to winding on a roll (diameter approx. 24 cm)
- Self-adhesive attachment allows a uniform appearance on smooth, clean surfaces such as cabinets, glass doors and shop windows as well as on whiteboards, lean cubes and showcases
- Dimensions: 5000×17 mm (W×H)

# Warning and protection profiles

**Workplace safety is top priority.** In warehouse and production areas where lots of people work, and delivery and transportation traffic is high, warning and protection profiles are particularly worth investing in. The flexible profiles made from PU foam can help prevent painful knocks and also protect inventory from damage. DURABLE has an effective solution for all edges, corners, surfaces and pipes.
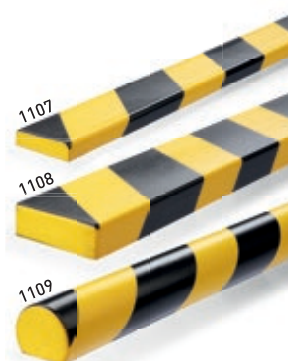

## WARNING AND PROTECTION PROFILES

- Self-adhesive, flexible protection profiles made from polyurethane foam
- Ideal for use in production facilities, dispatch and warehouses, basements, stairways, garages, on walls and beams, shelves and cupboards as well as on machines, storage trolleys, etc.
- For indoor applications
- Mark hazardous areas, protect surfaces, walls and reduce bumps
- Profiles can be shortened to the desired length using a sharp knife
- Colour similar to RAL 1004/9003 signal yellow/ signal black
- Fire tested according to DIN EN 13501-1 class E
- Temperature resistant from -30 °C to +70 °C
- Profile length: 1 m

# Marking solutions
## for storage and operations

**People are guided largely by what they see. Good signage is essential to ensure clear direction and observance of statutory work-safety regulations, especially in dangerous areas as well as walkways and driveways.**

Visual means of communication are increasingly used for efficient and flexible workplace organisation according to lean management methods, especially in production and operations. The DURABLE floor and safety markings comply with ASR A1.3 and ISO 7010. Both facilitate clear guidance as well as compliance with safety regulations in storage, production and operations.

# Workplace hygiene

**To reduce the spread of viruses via airborne infection, mask-wearing is recommended.** The mask should cover both the nose and mouth. It may also be important to cover your eyes, which is when a face or eye-protection visor can be useful. Both can be easily disinfected and reused.

## FACE VISOR PRO

- The face visor PRO covers the mouth, nose and eyes and can also be worn with a face mask
- It creates a barrier that minimises the exchange of spray and droplets
- This high-quality face visor is CE certified and complies with the Personal Protective Equipment (PPE) Regulation (EU) 2016/425 category II as well as DIN EN 166:2001
- It is particularly suitable for people who are in close contact with clients and colleagues (e.g. in hospitals and doctors' surgeries, in the retail and service industries as well as in the educational sector)
- The 500 mµ thick visor can be folded upwards while chamfered edges facilitate freedom of movement with the head bowed
- Also suitable for glasses wearers thanks to the distance between face and visor; optimal air circulation prevents the visor from fogging up
- Easy closure of the headband by means of a press-stud flap
- Suitable for head circumferences between 53 - 62 cm (suitable for over 90% of the population)
- Ideal wearing comfort thanks to padded forehead section
- Self-adhesive name label to identify the personal face visor

## EYE PROTECTION VISOR

- Eye protection against direct spray
- Easy to fasten and replace visor films
- Crystal-clear PET film (polyethylene terephthalate) for great visibility
- Can be worn over glasses
- Lightweight for excellent wearing comfort (visor and frame weigh just 9 g)
- Ideal for use as eye protection at dental practices, in the cosmetic industry or at the hairdresser
- The product complies with the following regulations of the European Union: Regulation (EU) 2016/425 Personal Protective Equipment (PPE) Cat. II and Directive 2001/95/EC General Product Safety.
