# PAPER DESK PADS

More than just practical – stylish workspace design.

## Exciting, unique office aids.

Paper desk pads from the SIGEL range are a real eye-catcher on any desk. This is where functionality comes beautifully packaged. And some of them even provide special additional features. If you just need a lot of space for note-taking, choose one of SIGEL's blank desk pads in one colour.

Perhaps you are someone who likes a clear overview of the months ahead. You will find plenty to choose from in the wide selection of desk pads with 2 or 3-year planners, whether in classic style with additional daily and weekly planners, or with one of our many modern designs.

And the SIGEL range would not be complete with specials such as desk pads with an integrated sticky note pad, pre-printed motifs to colour in, or pads with a protective plastic strip.

## Brand quality that's plain to see

SIGEL paper desk pads are perfect for long-term use. The sturdy gluing along the top and bottom edges prevents dog-eared corners. Additionally, all desk pads are made of high-quality, 80 gsm paper. This is quality in the tried and tested SIGEL style.

## Price tagging is simplicity itself.

Attaching price and information tags to articles for sale could not be simpler with the SIGEL price tagging products. Price tags, cords and loops are available in a variety of different versions. The tagging gun is the ideal way to tag textiles, shoes, leather goods and much more besides. Highly practical and absolutely professional.
